

cactus.
POYNTON

LOCATION
POYNTON

SYSTEM SIZE
6.48 KW

COMPONENTS
16 SOLAR PANELS

ANNUAL CO2 SAVINGS
1,488 KG PER YEAR

“The system has been performing above expectations and has allowed me to switch energy supplier, manage energy use and save costs through solar savings and energy storage. I would recommend Cactus Energy to anyone else looking into a solar system for their design insight, project management and overall client engagement.”
